

Whether 5 years old, 12 or 20, your student's educational needs will be met on an individual basis in a way which most helps him or her. We do not "cookie cutter" our lessons. One of our primary goals is for each client to walk out feeling better than when they walked in. We are committed to making that happen!

"Our tutor was absolutely amazing! She engaged my daughter, who is ADHD. She was able to make math fun and engaged her in a way that has helped her to love math." S.H. January, 2017

Texas Educational Consultants

Texas Educational Consultants

Serving the educational needs of Cypress and surrounding areas.

Yvonne Cumberland

Owner/Director

Yvonne has taken her varied experiences in public, private and home school education and melded them into a dynamic, workable program which meets the needs of students from Kindergarten through college. When not working directly with clients, she can be found on campuses across the Southern United States speaking to educators and students alike, encouraging and teaching writing techniques that not only enhance and improve the final product, but provide a renewed love for the craft itself. Additionally, Yvonne has written two books, edited three others and has just coauthored and published *The Spirit of Texas History Curriculum*.

"I just got accepted into my two top universities. Thank you so much for all of your help over the past year. You are a huge reason for my success." C.J. February, 2017

Let us help you with earning that coveted spot at your favorite college or university. From the first PSAT to SAT/ACT tests to College Entrance and Scholarship essays, T.E.C. does it all. We help you set manageable goals, help build communication between parents and students, and celebrate the arrival of acceptance letters!

Building Confident Learners

Our amazing staff members at Texas Educational Consultants each focus on their own subject(s) of expertise. Learning has just as much to do with building confidence and developing study skills as it does with mastering content areas. An overall spirit of fun and positive feedback permeates the lessons, building strong, successful

students who become ready to tackle school on their own.

We have specialists in the following areas:

- ❖ Chemistry
- ❖ Physics
- ❖ Calculus
- ❖ Biology
- ❖ All levels of Spanish
- ❖ Geometry
- ❖ Algebra I & II
- ❖ All levels of English/Reading
- ❖ Spelling
- ❖ Fine Motor/Handwriting
- ❖ Creative Writing

Additional Services

- ❖ SAT/ACT Prep (one-on-one or small group classes)
- ❖ Overall study skills
- ❖ Entrance/Scholarship Essays
- ❖ Organizational tools
- ❖ Goal setting
- ❖ Recreational Therapy
